Re: Eligibility Requirements

AMA Amateur Hillclimb Eligibility Requirements

- Twelve years old is the minimum age for an amateur hillclimb rider to compete in an American Motorcyclist Association-sanctioned event on any motorcycle displacing up to 250cc. To race any motorcycle displacing more than 250cc, a rider must be 14 years of age or older. The age of the rider is determined on the date of the event, except in youth competition.
- With the following qualifications, a provisional AMA Pro Racing Hillclimb License will allow a current amateur hillclimb competitor to compete in up to, but no more than, one race less than 50% of the AMA Pro Racing Pro Hillclimb sanctioned events, while maintaining their amateur status in AMA-sanctioned events. If a rider elects to compete in 50% or more races, their AMA Pro Racing provisional license will be upgraded to a professional license and amateur status removed.
 - Riders who have finished within the top 30 percent in the 450cc, 600cc or 750cc open classes during the previous two seasons of the AMA Amateur Hillclimb Grand Championship
 - Riders must be 16 years old when applying for a provisional AMA Pro Racing Hillclimb License
 - Must comply with AMA Pro Hillclimb Rulebook
