

We're excited that you're interested in learning more about the AMA in order to maximize your contribution to the AMA's mission as a volunteer.

Getting Started with Google Classrooms:

1. You can sign into the AMA EAGLES training program by going to <https://classroom.google.com/h> and entering the class code hkjsdxt (You will have to have a gmail account to sign up for google classrooms.)

Class code

Ask your teacher for the class code, then enter it here.

Class code

hkjsdxt

To sign in with a class code

- Use an authorized account
- Use a class code with 5-7 letters or numbers, and no spaces or symbols

If you have trouble joining the class, go to the [Help Center article](#)

Completing Classwork on Google Classrooms:

1. At the top of the page click on classwork

A screenshot of the Google Classroom interface. At the top, there are three tabs: 'Stream', 'Classwork', and 'People'. The 'Classwork' tab is highlighted with a yellow box. Below the tabs, there are several sections. The first section is titled 'How to use Google Classroom' and has a vertical ellipsis icon to its right. Below this section, it says 'No posts with this topic'. The second section is titled 'AMA EAGles: Core' and also has a vertical ellipsis icon to its right. Below this section, there are two items listed: 'Education' and 'Advocacy', each with a document icon and a 'No due date' label.

2. Under the classwork page you will find the different sections to complete the AMA EAGLES training program.
 - a. There are 4 main sections of coursework: Core, Elements of Expertise, Skills and Leadership.
 - b. Each section is then divided up into different assignments. You can view each presentation and quiz by clicking on the clipboard icon.

Advocacy No due date

4. After clicking "Mark as Done," a message will pop up that reads, "Mark as done? You didn't attach work for "Position Statements", so your teacher will just see it's done."

Select "Mark as done." There is nothing to attach.

5. You are now ready for your next assignment.

6. Repeat this process for all the modules.
