Medical and Safety Commission Proposal

Proposal: MS-0822-01 Page: 27-28 Section: 1.2 Chapter: F.4

CURRENT

F.4. It is recommended that a chest and back protector be worn by all competitors. It is highly recommended for all competitors under the age of 14.

PROPOSED

F.4. It is **highly** recommended that a chest and back protector be worn by all competitors. **It is mandated and required for all competitors in Youth Classes to wear a chest and back protector.**

REASON

This is an update from 2022, which the membership was advised would happen in 2023.

SUBMISSION: Paul Reiman

DISCUSSION

Medical and Safety Commission Proposal Item

Proposal: MS-0822-04 Page: 351 Section: Appendix 5.5 Chapter A.7

CURRENT

The Referee Duties are: 7. To decide on rider disqualifications and disqualify any rider who violates the rules of the meet.

PROPOSED

The Referee Duties are: 7. To decide on rider disqualifications and disqualify any rider who violates any rules of the meet. **This includes disqualifying a rider with a suspected concussion from further competition until evaluated by a qualified physician (MD or DO). Please refer to AMA Policy 6.2.**

REASON

This policy is already defined and explained in the AMA Policy 6.2, but this also places it in the referee duties. This duty places the referee duties to be consistent with all state laws regarding concussions in sport.

SUBMISSION: Paul Reiman

DISCUSSION

MOTIONS Made: _____ Second: _____
VOTE For: _____ Against: _____ Abstain: _____
DECISION Yes: _____ No: _____ Amended: _____ Tabled: _____

Medical and Safety Commission Proposal Item

Proposal: MS-0822-05 Page: 366 Section: AMA Policies 6.1 Chapter: B.1.a

CURRENT

1. Prohibited Substances are those substances that, in AMA Racings sole determination, may adversely affect the safety or integrity of the sport of motorcycle racing.
2. AMA Racing may make this determination with respect to a particular substance at any time, including and without limitation at the time of the discovery of drug test results.

PROPOSED

- 3. Intravenous Hydration is defined by the World Anti-Doping Agency and the United States Anti-Doping Agency as a performance enhancing substance. Although there are many appropriate medical uses of intravenous hydration, to solely use it for performance violates the integrity of competition and may be harmful.**
 - a. Any use of IV hydration, whether for medical reasons or performance reasons, will disqualify the rider from competition for 24 hours.**
 - b. Commercial Intravenous facilities are banned from the grounds of a competition.**

REASON

The use of IV hydration is increasing in the sport and violates the fairness and integrity of competition. The availability of IV hydration is not available to all competitors. At the professional level it is a banned substance in all disciplines.

SUBMISSION: Paul Reiman

DISCUSSION
